## PROJECTS

PICTAGRAM - Ruby on Rails | React | Redux [live](#) [git](#)  
*This fullstack app emulates the core features of Instagram, allowing users to share, like, and comment on photos.*

- Integrates with AWS S3 to store image files externally for improved speed and performance.
- Custom React modal component allows for modular, consistent modal windows.

DUNGEON DECK - JavaScript | jQuery [live](#) [git](#)  
*Players must manage their hand carefully in order to clear all 54 cards in the deck in this solo strategy game.*

- Includes valid move highlighting to facilitate rules acquisition.
- Incorporates Howler.js methods to overcome HTML's poor audio playback.

## WORK EXPERIENCE

SOFTWARE DEVELOPMENT ENGINEERING INTERN  
*RedRoute Inc. | Jul 2018 -*

- Developed new Interactive Voice Response features for core product.
- Expanded and maintained client-facing web portal.
